

## **SANTANDER UNIVERSITIES INTERNATIONAL WORK PLACEMENT SCHOLARSHIP**

### **Overview**

The University of Wolverhampton, in partnership with Santander Universities, are delighted to launch the Santander Universities International Work Placement Scholarship. Through this partnership we are able to offer 40 scholarships broken down as follows:

**10 scholarships @ £250, 25 scholarships @ £500, 5 scholarships @ £1000**

The International Work Placement Scholarship has been set up to support students financially with subsistence costs when on a 2 week (or longer) work placement in an EU country or further afield.

The following groups are priorities for support from the fund:

- Students from a widening participation background
- BAME students
- Disabled students (especially where DSA is unable to meet particular costs)
- Students who have entered higher education from care for the period of time spanning their 16th birthday (regardless of age now)
- Students who are 18 to 24 and have no communicative relationship with either living biological parent, or often their wider family
- Students from low income families

Students outside of these priority groups are also encouraged to apply as all applications will be considered:

Students can apply for a scholarship if they are:

- undertaking a work placement abroad outside of their normal country of residence
- the work placement is longer than 2 weeks

As well as financial support you will also be able to engage in additional opportunities via the wider Santander Universities alumni.

### **How to apply**

To apply for funding applicants must submit an online application and a panel will determine if funding is awarded.

The fund opened in October 2019 and closes 31<sup>st</sup> May 2020 or when funds are depleted whichever is sooner.
